Vietnam Veterans' Education Centre (VVEC)

In 2011 the Prime Minister announced that Australia would contribute \$3.3m to the development of the Veterans' Education Centre (VVEC) in Washington DC. On 27 November 2012 there was a ceremonial 'ground breaking' at the site, where US Defence Secretary Leon Panetta made special mention of Australian service in the Vietnam War. Construction of the Centre will begin in 2013 and the Centre will open in 2015.

The central feature of this high tech centre will be a 'Wall of Faces', a digital display of the images of those who died, including the images of the 521 Australians who died in Vietnam.

Through 2012 OAWG staff have worked to collect over 330 images of our war dead. The assistance of parents, widows, siblings, children, unit associations and other Ex Service Organisations has been extraordinary. These personal images, chosen by families, are very different from those in service records and will make for a poignant commemoration of their service.

Despite the success to date, the task is unfinished. OAWG is yet to locate a living relative for 185 of our servicemen who died in Vietnam. A full listing their names is attached below.
